

## Selected Readings on Current Superinfection Research

Table of reported superinfection cases

### Superinfection:

Steven G. Deeks,<sup>1\*</sup> Becky Schweighardt,<sup>2</sup> Terri Wrin,<sup>2</sup> Justin Galovich,<sup>2</sup> Rebecca Hoh,<sup>1</sup> Elizabeth Sinclair,<sup>1</sup> Peter Hunt,<sup>1</sup> Joseph M. McCune,<sup>1</sup> Jeffrey N. Martin,<sup>1</sup> Christos J. Petropoulos,<sup>2</sup> and Frederick M. Hecht. (2006). Neutralizing Antibody Responses against Autologous and Heterologous Viruses in Acute versus Chronic Human Immunodeficiency Virus (HIV) Infection: Evidence for a Constraint on the Ability of HIV to Completely Evade Neutralizing Antibody Responses. *Journal of Virology*, 80(12) 6155-164

Davey M. Smith, Matthew C. Strain, Simon D.W. Frost, Satish K. Pillai, Joseph K. Wong, Terri Wrin, Yang Liu, Christos J. Petropoulos, Eric S. Daar, Susan J. Little and Douglas D. Richman. (2006) Lack of neutralizing antibody response to HIV-1 predisposes to superinfection. *Virology* 355 Vol 1.

Davey M. Smith, Douglas D. Richman, and Susan J. Little. (2005). HIV Superinfection. *Journal of Infectious Diseases*. 192 ,438-444 <http://www.journals.uchicago.edu/JID/journal/issues/v192n3/34381/34381.text.html - fn1>

McCutchan, FE, Hoelscher, M, Tovanabutra, S, et al. (2005). In-depth analysis of a heterosexually acquired human immunodeficiency virus type 1 superinfection: evolution, temporal fluctuation, and intercompartment dynamics from the seronegative window period through 30 months postinfection. *Journal of Virology*, 79(18), 11693-704.

Gerhardt, M, Mloka, D, Tovanabutra, S, et al. (2005). In-depth, longitudinal analysis of viral quasispecies from an individual triply infected with late-stage human immunodeficiency virus type 1, using a multiple PCR primer approach. *Journal of virology*, 79(13), 8249-61.

Van Der Kuyl, AC; Kozaczynska, K; Van Den Burg, R, et al. (2005). Triple HIV-1 infection. *The New England Journal of Medicine*, 352(24), 2557-9.

Bernard, E. (2004). "Superinfection Occurs at 5% a Year in Recently Infected Gay Men Not on Therapy." AIDSmap.

Grassia, T. (2004). "Superinfection among Couples with HIV Questioned: Study Finds No Evidence of Superinfection, Suggests Physicians Continue Promoting Serosorting." Infectious Disease News.

Grant, R. M., J. M. McConnell, et al. (2004). "No Superinfection among Seroconcordant Couples after Well-Defined Exposure." 15th International AIDS Conference.

#### HIV Exposure:

McConnell, J., and R. Grant (2003). "Sorting Out Serosorting with Sexual Network Methods." 10th Conference on Retroviruses and Opportunistic Infections.

Truong, H. M., W. McFarland, et al. (2004). "Increases in 'Serosorting' May Prevent Further Expansion of the HIV Epidemic among MSM in San Francisco." 11th Conference on Retroviruses and Opportunistic Infections.
